ABOUT ME

I'm a full-stack web developer passionate about creating accessible, beautiful apps on the web. Though I have years of experience, new tech excites me, and I'm always working on a project to hone new skills.

SKILLS

TYPESCRIPT

REACT

RUBY ON RAILS

TAILWINDCSS

SVELTE

GO

PYTHON

JAVA

POSTGRESQL

DOCKER

EXPERIENCE

May – Aug 2023

Full-Stack Intern

Remote – PrescientAI

Created backend endpoints, automated background jobs, routes, and database structures for a professional SaaS product using React and Ruby on Rails. Designed and implemented intuitive and beautiful front-end interfaces. Tested and pushed multiple features to production in an agile development workflow.

`react / ruby on rails / postgres`

Aug 2021 –
Feb 2022

Coding Instructor

Remote – Juni Learning

Taught middle school and high school students coding skills, such as Java, according to Juni curriculum in Python and Java. Conveyed complex programming concepts in simple, easy to understand ways to students. Quickly adapted to and became proficient with unfamiliar curriculum material.

`java / python`

PERSONAL PROJECTS

2023

Art website

[Live Link - Github](#)

Fully responsive website for showcasing my illustration hobby. Utilizes many custom interactive components in React, such as drawers, menus, animations created with Framer Motion, and carousels, all while maintaining high speed and accessibility.

`next.js / tailwindCSS / swiper.js / cloudinary`

2023

Nonprofit Website

[Live Link](#)

Developed a website for a nonprofit organization I volunteered at in order to help increase their reach and develop their online presence. Modeled after a GoDaddy template, this fully responsive site was coded from scratch in GatsbyJS and React.

`react / tailwindCSS`

2023

Font Randomizer

[Live Link - Github](#)

Created a VSCode extension which randomizes the client's editor font upon application startup and at set regular intervals. Received positive reviews and 100s of downloads.

`typescript`

EDUCATION

2020 – 2024
3.84 GPA

Bachelor of Science, Computer Science

Brandeis University

Justice Brandeis Scholarship recipient. Dean's list student.

LANGUAGES

English - native

Japanese - proficient

Hebrew - proficient

Chinese (Mandarin) - rudimentary

HOBBIES

When I'm not coding, I love drawing, skiing, and learning new languages.

ACCOMPLISHMENTS

DeisHacks 2024 Winner - Best Marketing Hack

Brandeis Orthodox Minyan - Lead Religious Services Coordinator
